FundingBox

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 101005292

SecurIT has selected 42 projects aiming to develop new prototypes or demonstrators with support from the SecurIT consortium.

Projects have been submitted by consortia of at least 2 SMEs and addressed one of the SecurIT Challenges.

Matchmaking sessions have taken place at European level from the Open Calls launches and the SMEs registered in the security solutions mapping gained increased visibility.

Open Calls Challenge domains

DOMAIN #1

Sensitive infrastructure protection

Cybersecurity

Operations

Identification and access control

Zone security
and perimeter protection

DOMAIN #2

Disaster resilience

Before crisis:

Risk knowledge and evaluation

During crisis:
